ABOUT ME

Full-stack developer with experience in Java, Spring Boot, and React. Skilled in Java, C, Kotlin, JavaScript, TypeScript, and Python. Interested in software architecture and best practices such as Domain-Driven Design (DDD), with experience developing web and desktop applications. Seeking to contribute efficient solutions while continuously growing technically in collaborative environments.

PROFESSIONAL EXPERIENCE

OTL Cinema Teatral Lisboa — Lisbon, Portugal

Nov 2025 – Present

Developed a full-stack website for a theatrical costume rental platform, using React for the front-end and Java for the back-end.

Lips-lab - Lisboa, Portugal

Oct 2025 – Jan 2026

Developed a website for lipstick and lip gloss customization and sales, featuring a real-time color customization system.

lips-lab.com

Reative - Lisboa, Portugal

Set 2025 – Oct 2025

Back-end development internship using Spring Boot, applying Domain-Driven Design (DDD) principles to structure application services and domain logic.

Miguel Silva - Saude e Bem Estar - Mafra, Portugal

Jan 2025 – Mar 2025

Developed a website for an osteopathy clinic, focusing on modern design and user experience. Built with React and Vite, ensuring a fast interface and intuitive navigation.

miguelssilvasaudebem-estar.com

Full-stack aplicativo (produto próprio) – Recife, Brasil

Set 2024 – Dez 2024

Developed a full-stack financial management application focused on account management, payments, income tracking, investments, and financial planning.
